TEENAGE MUTANT NINJA TURTLES III: THE END.

TMNT 3 (CBB): CHAPTER 6

The sixth chapter at last, here's the finale! Walker's death? has a strange tonal whiplash going on in this adaptation. First the serious exchange of words and gun vs sword battle moment where Leonardo does something ambiguous to him, and then he's falling off the castle and banging into every floor on the way down. Still, probably an improvement over the movie. If it wasn't obvious (it wasn't at first for us either), the pigs seem to be named after "foreign" (to Japan) musical artists, we think. Perhaps a nod to Splinter naming the turtles after Italian Renaissance artists? The chapters might be done, but at some point we plan to release a volume edition with extras so look forward to that!
